

AUGUST 28TH WASHTENAW FARM TOUR

The Washtenaw County Conservation District is hosting a tour of several area farms highlighting environmental stewardship in our county. These farms have proven their commitment to sustainable farming by implementing best management practices such as: cover crops, filter strips and crop rotations. Each farm on the tour is Michigan Agricultural Environmental Assurance Program (MAEAP) verified. MAEAP provides protection for farmers as well as local water resources. Join us for an evening tour of these farms, discuss each journey to MAEAP verification and share a delicious farm-to-table meal catered by Zilke Farm Kitchen. *Cost is free. Must RSVP by Tuesday, August 21st.*

Start: 5:30pm
