

*WLEB farmers can take their farm management to the next level and upgrade to the latest in precision nutrient technologies with*  
**STRAND cost share funding**

This program will provide cost-share for farmers in the **Western Lake Erie Basin** to try new and enhanced practices such as:

- Grid/zone sampling - \$7/acre
- Variable rate application (self or custom application) or subsurface placement - \$10/acre
- Yield monitor calibration and evaluation of nutrient management with Michigan State University Extension - \$5/acre (cap of 200 ac per crop, crops must have received a VRT nutrient application to be eligible)

**THE APPLICATION PROCESS IS SIMPLE WITH QUICK APPROVAL AND NOTIFICATION.**

All farmers in the Western Lake Erie Basin are eligible. Project funds will be available on a first-come, first-served basis until funds are spent. Individual data remains confidential.

Participating farms will need to complete a MAEAP Cropping Risk Assessment
